Actually, I don't have access to this new site. Not editing access, if that's what you mean.

I don't know how you always spot these so quickly! ☺

By the way, Christine and I are working on a NEW national site, and you and I (and someone from Region 9, for some reason) have access to it:

<https://wcms.epa.gov/goldkingmine>

HQ absolutely does NOT want the public to have access to the OSC site. Um, yeah, isn't it too LATE for that? ☺

While you're in there:

EPA is sharing information as quickly as possible with the public as experts work to evaluate any effects the spill may have on drinking water, public health, agriculture, fish and wildlife. Regular updates on the response for the public and the media will be published as they are available.
